

# **Wonderworks Tier 2 Resources**

## **Second Grade**

For students who have a PRS of 0-39% or any student indicating a need for more intensive support, it is key to collect and closely monitor the formative data that comes from the Practice and Assessment Foundational Skills Book or Interactive Work Text.

- PRS: Probability of Reading Success
- OPM: Ongoing Progress Monitor
- SWF: Sight Word Fluency
- ORF: Oral Reading Fluency
- WW: WonderWorks
- TDI: Targeted Diagnostic Inventory
- LC: Listening Comprehension

## “Wonderworks” Tier II Intervention Program (K-5)

### Guidance for using K-1st, Grade 2 & Grade 3-5 Flowcharts

This document provides guidelines to school site personnel on the **purpose** and **directions** for usage of the K-5 Wonderworks Tier 2 decision Flowcharts.

**Purpose:** The flowcharts address 3 key areas:

- 1) Which students should receive increasing levels of intensive intervention based on the FAIR screening and diagnostic assessments?
- 2) Which component of Wonderworks Intervention students must receive based on the intensity of the identified risk from FAIR?(In K-1, there is only one component of Wonderworks)
- 3) What measures of Ongoing Progress Monitoring (OPM) can schools use to determine if groups of students are making a positive response, or if there are specific students who show a lack of progress and may need to be referred to SST for Tier 3 development?

**Note:** *It is important to triangulate data by reviewing several data sources in order to make correct instructional placements for intervention.*

**DIRECTIONS: Grade 2:**

Access and analyze the Class Status Report and the Class Targeted Diagnostic Report from **FAIR** (Florida Assessments for Instruction in Reading). The screening and diagnostic data from these reports will be used to place students into **TWO** components of Wonderworks described in (B) below.

The primary data point used to determine the level of risk is the **PRS** (Probability of Reading Success). Targeted Diagnostic Inventory data (TDI), and Target Passage data are also factored in the decision making. It is key to identify students who may still be at the Kindergarten Listening Comprehension Level (LC)

( **2<sup>nd</sup> Grade Target Passage** for AP1=2.2, AP2=2.4, AP3=2.5)

(A) **Row 1** of Flowchart answers the question: **Who gets what?**

Place students into the recommended 4 PRS ranges. The first two ranges PRS above 85% & PRS 40-84% are for students with the LEAST risk who can be considered for the **ACT** component of Wonderworks intervention based on additional data or available resources. The last two ranges PRS 16-39% and PRS below 16% are for students with **GREATEST** risk who must receive either the **ACT** component or the **FS** component.

PRS range of 16-39%: Further consider the targeted diagnostic inventory for students at the higher end of the TDI continuum to be placed into the **ACT** component, whereas students in the lower end of the TDI continuum will receive the **(FS)** component.

PRS below 16%: Students in this lowest PRS zone will receive the **(FS)** component of Wonderworks.

(B) **Row 2** of Flowchart answers the question: **What do students receive?**

The **2 components** of Wonderworks intervention program is the curriculum designated for all students who receive the 30 minutes of daily intervention (in addition to their 90 minute Reading Program Wonders). Based on the data above, students are placed in either of 2 components described below.

**2<sup>nd</sup> Grade Accessing Complex Text (ACT) component:** Daily lessons are designed to match the scope and sequence of the core program Wonders week to week, and provide an opportunity for students to keep pace with the core content and vocabulary of the weekly selections. Materials include a Teacher's Edition, Teaching Chart, Interactive Work-text, Apprentice Level Readers and Assessment Book. Several opportunities exist each week for quick- checks, re-teaching, corrective feedback, formal & informal assessments.

**Grades 2-3 Foundational Skills Kit (FS) component:** Lesson cards allow for systematic, sequential, explicit instruction in the strands of Phonological Awareness, Phonemic Awareness, Phonics, Structural Analysis, Word Recognition and Fluency. Materials include Skills Lesson Cards, Practice and Assessment Book, decodable readers, as well as Photo cards, Letter cards, High Frequency Word cards etc.

***It is recommended that data from the 2<sup>nd</sup> Grade FAIR spelling inventory as well as the TDIs be used to determine the best instructional starting point in the FS kit.***

(C) **Row 3** of Flowchart answers the question: **What tools will be used to monitor growth of groups of students, or indicate a lack of growth of individual students?**

**Students in (ACT):** The OPM tool is the 6-wk unit test from the Wonderworks intervention program located in the ACT assessment book . Mastery is 80% correct.

Teachers/interventionists must administer & collect this data using the attached Spreadsheet (or one of choice). After each 6- week collection period Rtl Tier II teams meet to analyze the data for two purposes: **One**, determining positive responses in groups and **two**, determining if there is a lack of progress in individual students. If approximately 70% of the students' group is showing a positive response, data is reviewed to see which individual student or students are not on track and these students may be referred to SST Tier 3. If approx. 70% of the group is not on track, the school Rtl team should determine what support or changes need to be initiated for the group.

*If there is a need for additional information on an individual student, formative ongoing data collected during the daily 90 min reading instructional block as well as the 30 minute reading intervention block should be used.*

**Students in (FS) kit:** The OPM tool is the grade assigned (2<sup>nd</sup>) Oral Reading Fluency (ORF) probe given at 6-wk intervals, and is located in the 2-3<sup>rd</sup> grade **FS** Practice and Assessment book. Each probe has its own Target rates for expected level of student performance.

Teachers/interventionists must administer & collect this data using the attached Spreadsheet (or one of choice). After each six week collection period, Rtl Tier II teams meet to analyze the data for two purposes: **One**, determining positive responses in groups and **two**, determining if there is a lack of progress in individual students. If approximately 70% of the students' group is showing a positive response, data is reviewed to see which individual student or students are not on track and these students may be referred to SST Tier 3. If approx. 70% of the group is not on track, the school Rtl team should determine what support or changes need to be initiated for the group.

*If there is a need for additional information on an individual student, formative ongoing data collected during the daily 90 min reading instructional block as well as the 30 minute reading intervention block should be used.*

## 2<sup>nd</sup> Grade Tier 2 Ongoing Progress Monitoring Schedule

Students receiving Foundational Skills (FS)

Assessments found in **WonderWorks Grades 2-3 Practice and Assessment Foundational Skills Book**

Ongoing Progress Monitoring occurs every 6 weeks	Ongoing Progress Monitor	Page Number	Fluency Goal
Ongoing Progress Monitor 1	Oral Reading Fluency from Foundational Skills book	Pgs. A196-211	41-61 Words Correct Per Minute(WCPM) with accuracy rate of 95% or higher.
Ongoing Progress Monitor 2	Oral Reading Fluency from Foundational Skills book	Pgs. A196-211	41-61 Words Correct Per Minute(WCPM) with accuracy rate of 95% or higher.
Ongoing Progress Monitor 3	Oral Reading Fluency from Foundational Skills book	Pgs. A212-227	62-82 Words Correct Per Minute(WCPM) with accuracy rate of 95% or higher.
Ongoing Progress Monitor 4	Oral Reading Fluency from Foundational Skills book	Pgs. A212-227	62-82 Words Correct Per Minute(WCPM) with accuracy rate of 95% or higher.
Ongoing Progress Monitor 5	Oral Reading Fluency from Foundational Skills book	Pgs. A228-243	79-99 Words Correct Per Minute(WCPM) with accuracy rate of 95% or higher.
Ongoing Progress Monitor 6	Oral Reading Fluency from Foundational Skills book	Pgs. A228-243	79-99 Words Correct Per Minute(WCPM) with accuracy rate of 95% or higher.

**There are 24 Fiction and Non-Fiction passages to measure Oral Reading Fluency. These passages are recommended for use as follows:**

- 1<sup>st</sup> set of eight – OPM 1 & 2**
- 2<sup>nd</sup> set of eight – OPM 3 & 4**
- 3<sup>rd</sup> set of eight – OPM 5 & 6**

# Administering Fluency Assessments and Using the Fluency Record

## Directions

Give a student a reading passage he or she has not seen before. Fluency assessments are always done as “cold reads”; that is, they are done with material that is new to the person being tested. Explain that you would like the student to read the passage out loud and then answer two questions about it. Then say: *When you are ready, you may begin.* Start your stopwatch when the student reads the first word.

1. Follow along on your copy of the passage as the student reads. Place a line through each word that is read incorrectly or omitted.
2. Place a check above each word that is read correctly.
3. If the student substitutes or mispronounces a word, put a line through the word and write the word the student said above it.
4. If the student does not correctly say the word within 3 seconds, say the word for the student and circle the word to mark it as incorrect. Self-corrections and repetitions are not marked as errors.
5. At the end of one minute, stop your stopwatch and place a bracket (]) after the last word read by the student.
6. Have the student finish reading the passage.
7. Read the comprehension questions to the student. Have the student answer the comprehension questions orally.

## How to Score

1. Look at the number to the left of the same line in which you placed the bracket. (Note: In hyphenated words, count each individual word.) Subtract from this number all the words that follow the bracket to arrive at the number of words a student was able to read in one minute. Place this number in the “Words Read” section of the scoring table right below the questions on the recording sheet.
2. Count each word you circled or put a line through. This is the number of errors made. Place this number in the “Errors” section of the scoring table right below the questions on the recording sheet.
3. Subtract “Errors” from “Words Read” to arrive at your Oral Reading Fluency Rate or Words Correct Per Minute (WCPM) score.
4. Check off the box that best matches the administration date and compare this WCPM with the 50th percentile score listed on the recording sheet.

5. To arrive at the Oral Reading Accuracy Rate, divide the WCPM by the total number of words read. Use the scoring table on the recording sheet to capture the information.
6. Use the Prosody scoring table on the recording sheet to measure a student's ability in the following key areas— Reading in Phrases, Pace, Syntax, Self-correction, and Intonation. Score students from Level 1 (L1) to Level 4 (L4) based on the descriptions in the Oral Fluency Scale found below.

<b>Oral Fluency Scale</b>	
<b>Level 4</b>	<b>The student:</b> <i>reads in large, meaningful phrases; may occasionally repeat words or short phrases, but the overall structure and syntax of the passage is not affected; reads at an appropriate rate of speed with expressive interpretation.</i>
<b>Level 3</b>	<b>The student:</b> <i>reads in three- or four-word phrases; reads primarily in phrases that preserve the passage's syntax and structure; attempts to read expressively; generally reads at an appropriate rate of speed.</i>
<b>Level 2</b>	<b>The student:</b> <i>reads mainly in two-word phrases, with some longer phrases and at times word-by-word; may group words awkwardly and not connect phrases to the larger context of the passage; reads sections of the passage excessively slowly or quickly.</i>
<b>Level 1</b>	<b>The student:</b> <i>reads word-by-word, with some longer phrases; does not phrase meaningfully or with an appropriate rate of speed; reads the passage excessively slowly.</i>

7. Write comments about oral reading performance on the recording sheet, including a student's ability to answer the comprehension questions.
